

The YRC130³ Project

The Yorkshire Ramblers' Club collectively marked their 130th year by visiting the tops of 130 of Yorkshire's hills, fells, mounds and tumps in no more than 130 days – our YRC130³ project. So enthusiastic were 52 YRC members that all 130 had been ticked off in just 51 days.

In the autumn of 2021, our committee considered ideas for celebrating the 130th year. Previously, the Club had tackled the Munros, the Corbetts and Slingsby's Norwegian first ascents, so they were all ruled out. Chosen was a list of 130 of Yorkshire's tops as this matched the Club's name and the anniversary to be celebrated. Further, given the uncertainty over continuing or new Covid-related restrictions on travel and gathering, the generous allowance of 130 days, the tops' proximity to many members, and individual ascents (not mass assaults) should allow it to be achievable.

The list was filtered from the Hill Bagging online database of British Hills filtered for those in Yorkshire and excluding the more minor tumps. Scrutiny of the list identified a few duplicates to be deleted, and the occasional listing with a nearby higher point which was taken in preference. The highest 130 formed our list.

The tops included all the obvious ones such as the Yorkshire Three Peaks, Dodd Fell, Great Shunner Fell, etc. There aren't though 130 such prominent hills and the lowest tops are 165m Nunburnholme Wold and Landmoth Hill, both slight mounds in fields. Seamer Beacon above Scarborough is the most easterly top, Roseberry Topping the most northerly. The greatest concentrations of tops are in the Yorkshire Dales with Whernside just beating Ingleborough to be the most westerly top. South of the Dales, from Skipton there are

a dozen scattered tops running down towards Huddersfield. South of there, several tops on the moors west of Holmfirth and on into the Peak District led to a string of tops on the eastern edge of the Derwent Valley end in the most southerly top, Stanage's High Neb.

As there was some doubt about getting access to the MoD's Barden Fell Top, a spare was added to the list: Cocklick Hill. In the event this was not needed.

Members chose for themselves how to set about their ascents. Most tackled them as day walks. A few ran on Ingleborough. Two backpacked above Swaledale. And two strolled out from their homes. A few of the tops required short rock scrambles such as on Back Tor.

The greatest number of consecutive days two members spent ticking off tops was four. The greatest number of tops in a single day for a member was eight but these were in three rounds of tops with driving between.

Perhaps unsurprisingly, some participants happened upon another member: two on Derwent Edge met another backpacking from Stanage's High Neb; one saw another having lunch at the Wainstones. On the other hand, at least three members were ticking tops round the top of Bilsdale on the same day but failed to spot one another.

Two-thirds of the 290 reported visits to tops, 193, were made by members out on their own or occasionally with a guest. Thirty percent, 86, were by pairs, six by threesomes and three by foursomes. Two other special outings were the one to Mickel Fell by seven members and a final get together on Otley Chevin by 11 members and three guests.

What follows are lists of the tops with who did which top, when and any comment they made.

Inevitably, errors will have crept into these lists during data recording and data manipulation, despite care being taken and some checking of uncertainties. For these I apologise in advance.

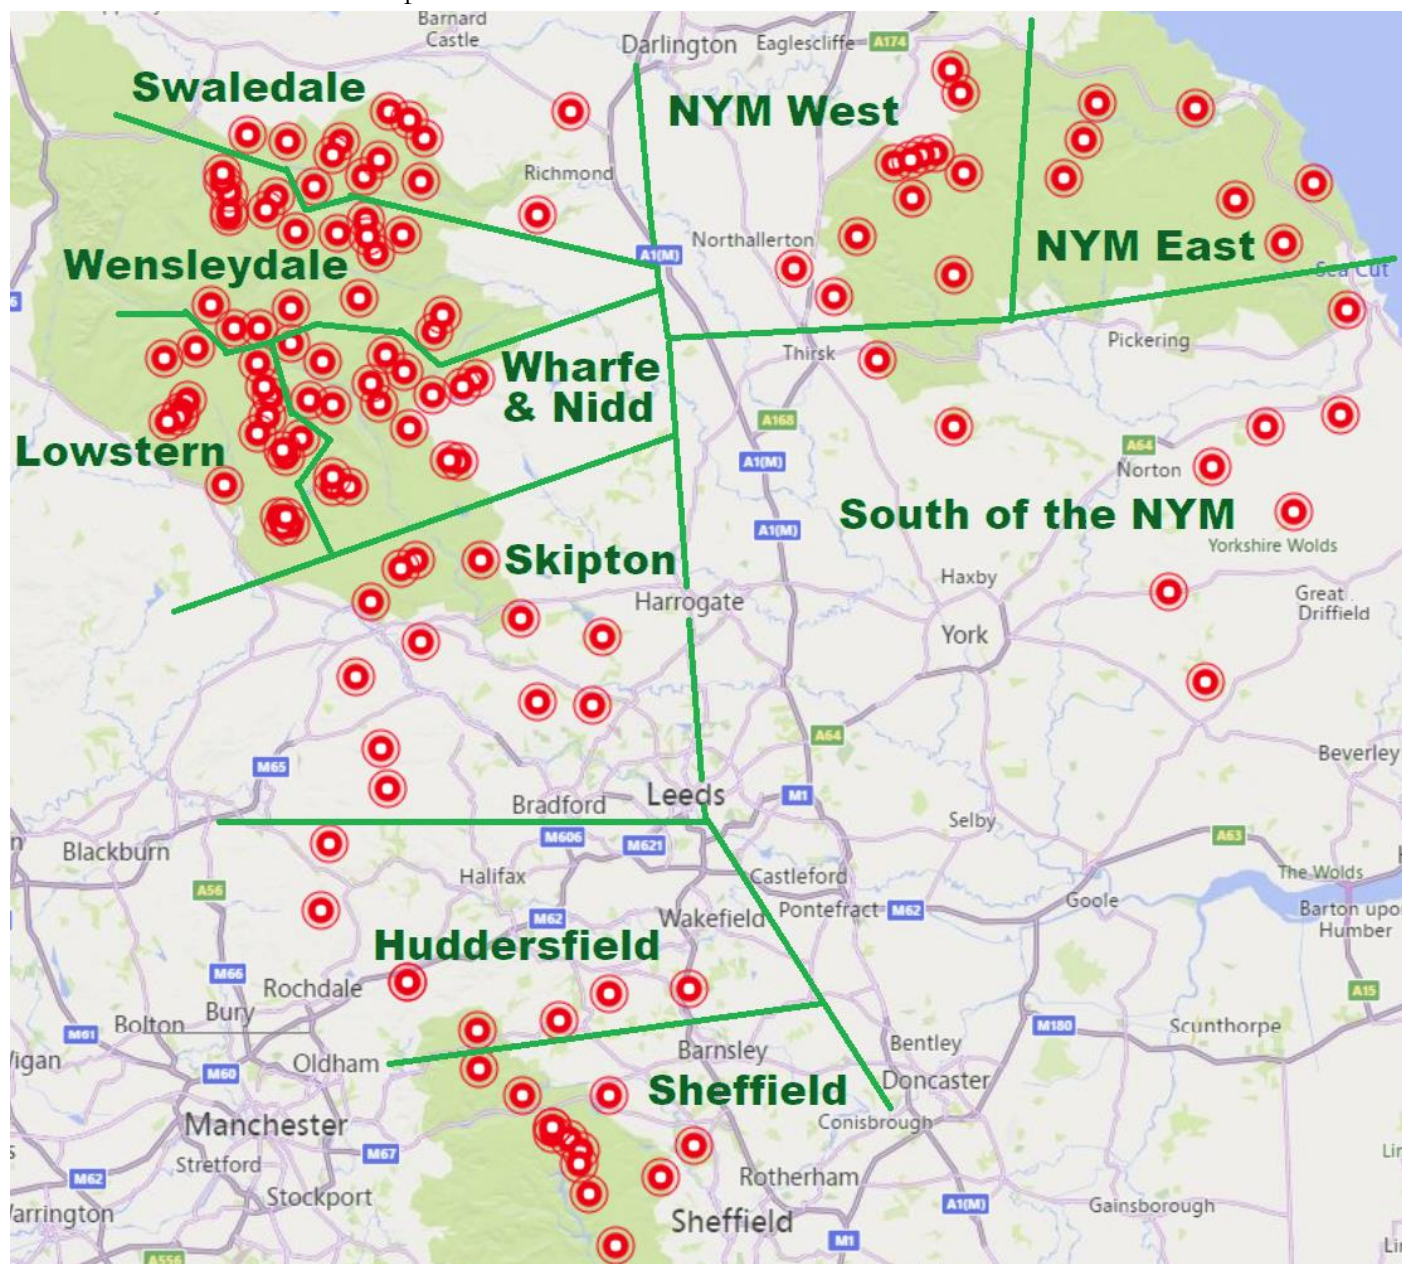

The information does not imply any right of access to the locations, nor are the tops recommended for visits. Neither the YRC nor I suggest that anyone else visits any or all of these tops. The list and YRC130³ Project were devised purely for the amusement of YRC members.

Michael Smith, August 2022

1 Mickle Fell

139 Cross Fell

¹ Mickle Fell added as it was in Yorkshire at the time the YRC was founded in 1892. Not part of the 130. The other nearby tops were added as they make a good day's round once one is up in that area. Mickle Fell is now in County Durham, Cross Fell in Cumbria.

² These tops had initially been filtered out as minor but were in an area oft frequented by Arthur Salmon and Frank Wilkinson so they added them to their lists. Not strictly part of the 130.

³ Initially, Barden Fell was thought likely to be inaccessible as it was on a MOD training area and this 'top' in a field close to Skipton was added as a replacement should it be required to make up the 130. In the event, this replacement was not needed.

Who Visited each Top

Listed in order date of ascent with the date formatted d/mm. Only members names are shown.

The 130 tops have entries printed in black while the additional tops' entries are in grey.

Each Member's Visits to Tops (with their dates and any comments)

Listed in order of full name (forename first), then by top number, then date of ascent (formatted d/mm).

Who	Top	Date	Note
Alan Hinkes	1 Mickle Fell	30/04	
	3 Ingleborough	5/03	Followed by a pint at Ribbleshead.
	21 Simon Fell	5/03	
	22 Lovely Seat	8/03	
Alan Kay	4 Great Shunner Fell	23/03	From Cotterdale, then on to Hugh Seat, Little Fell and Sails.
	5 High Seat	1/04	Combined ascent with Archy Styrigg. Couldn't decide which was the highest of three cairns, so visited them all. Quite a lot of wet snow on upper part of hill. Fine distance views in every direction.
	8 Archy Styrigg	1/04	Ascended from Birkdale, then on to High Seat. A lot of snow on both fells, though fine distance views to Lake District, Cross Fell etc.
	10 Hugh Seat	23/03	Part of a round from Cotterdale.
	11 Plover Hill	9/03	
	17 Little Fell	23/03	Part of a round from Cotterdale.
	18 Sails	23/03	Part of a round from Cotterdale.
	31 High Green Field Knott	9/03	
	34 Oxnop Common - Blackstone	19/03	With Julia Kay. I've been up this hill a few times in recent years, the ascent is not particularly inspiring, but the view from the Beacon, about 200m north of the summit cairn, definitely is inspiring.
	45 Height of Hazely	5/03	
	60 Woodhall Greets	11/03	
	71 Blaydike Moss	9/03	
	74 Cam Rakes	20/03	With Julia Kay. A new hill for me, we approached from Oughtershaw along the Dales Way, and from Far End Barn took a direct route up the hill to the high spot point 503, then visited the trig point 150m SW. We were fortunate to enjoy good weather, excellent visibility and dry-ish ground conditions on this hill, otherwise it could have been a bit purgatorial.
	80 Addleborough	23/04	Included in circular walk from Thoraby.
	98 Pinhaw Beacon	8/04	Julia and I went up Pinhaw Beacon, a short, circular walk from Lothersdale along the Pennine Way, and back via tracks west of Thornton Moor and Raygill. Superb, clear views, with Ingleborough in the distance.
	99 Skipton Moor	20/04	A surprisingly attractive little hill, with good views of the Wharfe and Aire valleys.
	103 Burley Moor	3/04	A short walk from home, with Julia. We continued on to the trig at the high point of Ilkley Moor at SE114452.
	114 The Chevin	12/05	
Alan Linford	87 Urra Moor - Round Hill	14/03	Well known view point over NY moors
	90 Danby High Moor	10/03	Wellie job. The moor was a source of peat for fuel, long since abandoned but leaving hollows. The peat cutting access road, still on the map but not on the ground requires a quad bike. Slightly better access is from the Lyke Wake Track.
	95 Black Hambleton	17/03	

	96 White Hill	15/03	Passed it many a time but did not know until the 130 exercise that the hump had a name.
	105 Easby Moor	10/03	With Angie Linford and Alison. Captain Cook's monument.
	106 Roseberry Topping	7/03	
	110 Danby Beacon	10/03	
	131 Bonfire Hill / Landmoth Hill	22/03	None of the locals call it Bonfire Hill! Landmoth Hall now has a caravan site.
Alan Palmer	110 Danby Beacon	30/04	Only a short stroll from the back of my house.
Anca Pordea	59 Back Tor	19/03	Same tour as the one for High Neb. Did not spot much wild life apart from some fighting grouse. And two lovely YRC members on Derwent edge!
	84 High Neb	19/03	With Karen Robertson, a friend from work. Started at Hathersage, camped on top of Abbey brook, then down to Bamford via Win Hill.
Andy Syme	103 Burley Moor	2/04	With 3 friends and 3 dogs
Anne Latham	7 Buckden Pike	8/03	
	68 The Old Pike, Beamsley Beacon	7/03	
Arthur Salmon	23 Yockenthwaite Moor	5/03	
	68 The Old Pike, Beamsley Beacon	17/03	With George Buxton.
	79 Simon's Seat	30/06	Octogenarians
	83 Hoof Stones Height	24/03	George Buxton was with us, an ex-colleague. We ascended from Cornholme on the Todmorden- Burnley Road and walked back to Todmorden by a combination of paths on the north side of the valley.
	85 Withins Height	17/04	Very flat top, but this is really rough going for a few hundred metres from the Pennine Way.
	86 Freeholds Top	10/03	With ex-colleague George Buxton, as part of our usual Thursday walks in the Calderdale area. We started our walk from Shawforth, which is in the valley to the south of Bacup. We have visited this top many times in the past and have always referred to it as Trough Edge End as shown nearest to the trig point on the OS map. Oddly, the name Freeholds Top is on the OS map, but is about 200m to the south.
	88 Little Wolf Stones	16/04	We parked where the Millennium Way crosses the road (GR SE 0670 38160). So we did the top via Keighley Moor Reservoir and Old Bess.
	91 Round Hill	17/03	With George Buxton.
	103 Burley Moor	1/04	As I approached the very insignificant 'Great Skirtful of Stones' I was joined by a young couple who turned out to be prospective members from Huddersfield. What a chance meeting!!
	113 Lindley Moor	21/04	I did it in the company of George Buxton. I needed two attempts to get the location right: at first I went to the trig point which on checking the GR I realised wasn't right. This is perhaps a good thing since the gritstone climb to the trig point was beyond my current capabilities because of my hip problem.
	114 The Chevin	12/05	
	133 Manshead End	8/04	
	134 Sheep Stones Edge	28/04	with George Buxton
	135 High Brown Knoll	28/04	with George Buxton
	136 Crow Hill	9/06	with Frank Wilkinson and George Buxton

	137 Flaight Hill	9/06	with Frank Wilkinson and George Buxton
	138 White Hill	9/06	with Frank Wilkinson and George Buxton
Barbara Salmon	23 Yockenthwaite Moor	5/03	
	85 Withins Height	17/04	
	88 Little Wolf Stones	16/04	
Becca Humphreys	1 Mickle Fell	30/04	
	13 Great Knoutberry Hill	19/04	Quick dash from Dent Station. Skylarks in abundance. Great views from the trig at the top. Rapid return to the car and off to Blea Moor
	61 Blea Moor	19/04	The earth moved (train through the tunnel under our feet). Yrig.point visited by another allotment walker juar after us. Another YRC or abid trigg bagger?
Carol Whalley	23 Yockenthwaite Moor	5/03	
	68 The Old Pike, Beamsley Beacon	18/03	Felicity Beasley (our daughter) joined us on this special occasion.
	80 Addleborough	14/03	It was to celebrate John's 80th birthday.
	114 The Chevin	12/05	
Chris Hilton	58 Parson's Pulpit	25/03	I wandered over Clapham High Mark, Parson's Pulpit and Proctor High Mark in good weather. But the day spoilt by the constant 'Spring is here' chatter of skylarks and some crying curlews.
	64 Proctor High Mark	25/03	
	65 Clapham High Mark	25/03	
Christine Harrison	84 High Neb	14/04	
	100 Hartcliff Hill	2/04	
	107 Wharncliffe Chase	24/03	
	115 Emley Moor	15/04	
	128 Woolley Edge	29/03	
Conrad Tetley	1 Mickle Fell	30/04	
	7 Buckden Pike	5/03	A wonderful day out taking in the Buckden Gill waterfalls route via the Lead Mines to the summit. Crinoid fossils found along the way.
	23 Yockenthwaite Moor	6/03	Beautiful weather and an attempt at Strans Ghyll made but Bev didn't fancy the algae covered 'green wall' section.
	85 Withins Height	19/04	A very pleasant walk accompanied by my less than enthusiastic 8 year-old Greyhound Ted. All was well until upon reaching Top Withins and an encounter with a gentleman; Who could talk the hind leg off a donkey. After wishing him goodbye, arrived at the high point where Ted fell asleep on the moor. Whilst walking off the moor, a serenade was provided by a single bagpiper playing atop Penistone Hill.
	101 Smearsett Scar	8/03	Very windy and chilly on top!
	114 The Chevin	12/05	
David Booker-Smith	2 Whernside	12/03	
	3 Ingleborough	12/03	Ran the round of Ingleborough and Whernside with the dog. Included Park Fell but not its trig point as that was on the wrong side of the wall.
	9 Pen-y-ghent	13/03	
	114 The Chevin	12/05	
David Hick	87 Urra Moor - Round Hill	7/03	Walked with Christine Marriott. We revisited the Cleveland Way track with a short detour to the top.

	89 Cringle Moor - Drake Howe	11/03	With Christine Marriott. Still windy.
	92 Carlton Moor	11/03	Made a good round with Cringle Moor. V Windy.
	93 Noon Hill	7/03	Walked with Christine. Boggy path. We were buzzed by a paraglider. Great views.
	104 Rievaulx Moor	5/03	I went 300 metres beyond the trig point as suggested for the top, but the trig point still looked higher!
	114 The Chevin	12/05	
	118 Far Hill Top	5/03	No RoW but I didn't get caught. Crept through someone's garden - twice.
Derek Bush	101 Smearsett Scar	10/04	Parked at the top of Buck Haw Brow t walk over to Smearsett Scar. An easy walk, saw no body until we got down to Feizer. Accompanied by Dan Wood, son of once-member Barrie Wood, plus Bobbie the dog.
Dorothy Heaton	98 Pinhaw Beacon	2/05	
Fiona Booker-Smith	2 Whernside	12/03	
	3 Ingleborough	12/03	
	9 Pen-y-ghent	13/03	
Frank Wilkinson	68 The Old Pike, Beamsley Beacon	17/03	
	79 Simon's Seat	30/06	
	83 Hoof Stones Height	24/03	
	86 Freeholds Top	10/03	
	91 Round Hill	17/03	
	114 The Chevin	12/05	
	133 Manshead End	8/04	We did the above top though it was not on the original list being a minor tump taking the most direct approach from Baitings Reservoir on the A58, about 2 miles E of where the Pennine Way crosses the road. We continued our walk from there to Hebden Bridge to take the train back home. Incidentally, a few days after Frank, George Buxton and I did the Hoofstones Height Top, Frank and George both tested positive for covid. We concluded that they must have been infected on the train. Arthur didn't test positive and Frank seemed to have no symptoms, but George Buxton was still testing positive and not fit to come with us on the Manshead End route.
	134 Sheep Stones Edge	28/04	
	135 High Brown Knoll	28/04	
	136 Crow Hill	9/06	With Arthur and George
	137 Flaught Hill	9/06	With Arthur and George
	138 White Hill	9/06	With Arthur and George
George Burfitt	72 Cracoe Fell	15/04	
	73 Thorpe Fell Top	15/04	
Harvey Lomas	16 Fountains Fell	29/03	
	19 Fountains Fell South Top	29/03	
	44 Grizedales	24/04	
	50 Rye Loaf Hill	24/04	
	52 Kirkby Fell	24/04	
	63 Back Scar	24/04	
Helen Smith	7 Buckden Pike	6/03	

	15 Dodd Fell Hill	5/03	Ascent from the south initially along the Pennine Way. Good views all around but especially snow-plastered Cross Fell, the Lake District Fells, Three Peaks and Pendle.
	24 Tor Mere Top	6/03	
	27 Drumaldrace	5/03	On our second day of this project. Cold, clear, sunny and windy.
	45 Height of Hazely	4/03	Another unmarked high point on boggy moorland. Just above the cloudbase. This one on the first day of this project.
	47 Howden Edge	15/04	
	51 Margery Hill	15/04	Three mountain hares spotted on this round. The first on Pike Lowe was mottled white and grey and well camouflaged against the pale rocks near the summit. The other two were darker and close to Wet Stones.
	53 Redshaw Moss	5/03	Cold wind but clear distant views from the Northern Pennines (snow covered), past the snow fringed Lakes, and the Three Peaks to Pendle Hill.
	59 Back Tor	12/03	Leaving Back Tor we came across Anca Pordea and colleague heading towards Abbey Brook to wild camp. Good luck to them as a storm is brewing up tonight.
	62 Harland Hill	4/03	On the first day of the 130 project
Iain Gilmour	114 The Chevin	12/05	
Ian Hawkes	90 Danby High Moor	6/03	Danby High Moor, Danby Beacon and Heads all walked together in a single round.
	104 Rievaulx Moor	8/04	A 13-mile circuit over Rievaulx Moor including breakfast in Helmsley and the abbey on the return route.
	109 Heads	6/03	
	110 Danby Beacon	6/03	
Jason Humphreys	3 Ingleborough	20/04	Great views to coast and Lakes. Very quiet on top
	13 Great Knoutberry Hill	19/04	
	21 Simon Fell	20/04	Followed the wall from Park Fell via Simon Fell North top. Nice wind break by the wall. Sunny, cry and clear
	25 Simon Fell North Top	20/04	Sunny, dry, clear views. Only met one other person, heading towards Ribbleshead.
	42 Park Fell	20/04	Cuckoo! Frog spawn and two jet fighters to chivy me along. Warm, dry, easy going underfoot. Wind increasing as progress made
	61 Blea Moor	19/04	
Jennifer Tennant (PM)	13 Great Knoutberry Hill	16/04	
	36 Great Pinseat	15/04	
	37 Black Hill	23/03	
	38 Melbecks Moor	15/04	
	61 Blea Moor	16/04	
	66 Horse Stone Naze	5/03	
	69 Hoar Stones, Howden Edge	5/03	
	72 Cracoe Fell	26/03	
	73 Thorpe Fell Top	26/03	
	75 West Nab	18/03	
	76 Dead Edge End	21/03	
	78 Calver Hill	15/04	
	81 Elbolton Hill	26/03	
	82 Way Stone Edge	17/03	

	83 Hoof Stones Height	19/03	
	85 Withins Height	25/03	
	88 Little Wolf Stones	10/04	
	103 Burley Moor	1/04	
	115 Emley Moor	14/04	
Jim Harrison	84 High Neb	14/04	We saw three mountain hares on the Stanage Moors romping around in the heather. They were still quite white.
	100 Hartcliff Hill	2/04	
	107 Wharncliffe Chase	24/03	With Lynn Oxlade.
	115 Emley Moor	15/04	
	128 Woolley Edge	29/03	Visited this gloomy afternoon
John Brown	12 Rogan's Seat	11/04	This was visited on the Sunday after a night at Keld campsite very bleak moorland but with a decent path all the way to the top. I was accompanied by a friend Adrian Freeland who came with me and we went from here to visit Water Crag
	14 Water Crag	11/04	Water Crag was across open moorland high up on the west Moor, Adrian and I walked across from Rogan's seat it was boggy in parts.
	20 White Mossy Hill	10/04	This was a very insignificant spot with just a few stones, all be it the corner of the Yorkshire Cumbria border
	36 Great Pinseat	26/04	
	38 Melbecks Moor	25/04	
	43 Hoove	26/04	
	48 Robert's Seat	10/04	This was in the corner of a field marked by a stone, very bleak spot above the Farm of Ravenseat. Weather was good if a little cold for April
	67 Booze Moor	25/04	
	70 Cleasby Hill	26/04	
	77 Kisdon	11/04	At the end of the day after my visit to Rogan's seat and Water Crag, I scaled this one alone as it was close to our campsite. Although only a small hill, access to the cairn was difficult due to the numerous walls and total lack of paths, Quite an impressive cairn though.
	78 Calver Hill	25/04	
John Jenkin	98 Pinhaw Beacon	8/04	
John Middleton	51 Margery Hill	9/03	I was on Margery Hill's most unimpressive summit by 9.40 in quite strong winds. It was an 8.8km round trip from the King's Tree turning circle which took 144 minutes including the usual coffee stop and a short botanical deviation. I only met two cyclists and two walkers all in the King's Tree/Slippery Stones section. It pays to get up early.
	59 Back Tor	8/03	The temperature on the top of back Tor was -1C at 928 then there was the wind factor but very clear with just a little haze in the distance - well worth the effort. The round trip via Foulstone Road took 110 minutes including the obligatory coffee break. What I remember most about Foulstone Moor and Brogging Moss, whilst doing a botanical survey, was a grumpy gamekeeper and finding several small animal traps.
	84 High Neb	6/03	With Valerie. By 9.40 this morning (6th) Valerie and I were admiring the 360° views from High Neb. To and from Dennis Knoll took us just around 100 minutes but that included 15 minutes below High Neb crag reminiscing about, amongst others, Kelly's

			Overhang (that was always interesting) and Quietus, once done, is never to be forgotten.
John Sutcliffe	4 Great Shunner Fell	7/04	Fine weather with good views, noting that many of the mill floor flags have succumbed to the bog. Newly dropped bags of flags suggest they are planning to double-deck the pathway - probably a bottomless task though. My brief wine gum stop at the shelter was followed by a steady descent to the 597m spot height of the indistinct top of stoneless Stony Band.
	6 Great Whernside	6/03	
	7 Buckden Pike	6/03	
	9 Pen-y-ghent	12/03	A superb day and grand walk, ascending my favourite mountain by P. Way from Horton, then dropping off S end to Helwith Bridge via Long Lane, returning to Horton via the Ribble. Not my on my short 130 list but couldn't resist it. Small cat-sized dogs in the 50 mph south-easterly were almost airborne, which they loved, racing around the huge pit-pony size dogs trembling with fear.
	24 Tor Mere Top	6/03	
	28 Birks Fell	5/03	
	29 Horse Head Moor	5/03	
	32 Stony Band	7/04	
	77 Kisdon	6/04	A prominent outlier tucked into a bend in the Swale, capped by a summit cairn (P1). Fine views over to Crackpot Hall and impressive workings of Beldi Hill lead mine, seen from the north side of the hill.
	102 Sharp Haw	4/03	
John Whalley	23 Yockenthwaite Moor	5/03	
	68 The Old Pike, Beamsley Beacon	18/03	
	80 Addlebrough	14/03	
	114 The Chevin	12/05	
Michael Crowther	7 Buckden Pike	6/03	
	15 Dodd Fell Hill	5/03	
	27 Drumaldrace	5/03	
	53 Redshaw Moss	5/03	
Mike Gregg	7 Buckden Pike	5/03	
	29 Horse Head Moor	4/03	Misty.
	35 Brown Haw	5/03	
	40 Naughtberry Hill	5/03	
	47 Howden Edge	7/03	The five from High Stones to Hoar Stone along Howden Edge today. Bits of sunshine, snow showers, not a soul about.
	51 Margery Hill	7/03	
	57 Outer Edge	7/03	
	62 Harland Hill	5/03	
	66 Horse Stone Naze	7/03	
	69 Hoar Stones, Howden Edge	7/03	
Michael Smith	1 Mickle Fell	30/04	
	2 Whernside	6/06	8:23 at the top in drizzle and thick cloud
	3 Ingleborough	6/06	
	4 Great Shunner Fell	21/04	Deserted Stony Band and Great Shunner Fell were tackled soon after sunrise from a frosted wild camp above Twaite.

5 High Seat	29/04	High Street in the Mallerstang area, the first of a string of five heading south on a sunny dry day with a cool breeze on the ridge.
7 Buckden Pike	6/03	Ascent from Starbottan and via the mine in cold dry weather.
7 Buckden Pike	28/04	
8 Archy Styrigg	29/04	
10 Hugh Seat	29/04	
12 Rogan's Seat	20/04	
14 Water Crag	20/04	A moorland round from Keld up East Gill to Water Crag then Rogan's Seat and detouring to take in Kisdon when dropping back down to Keld. Saw nobody until approaching Gunnerside Gill.
15 Dodd Fell Hill	5/03	
17 Little Fell	29/04	
18 Sails	29/04	
20 White Mossy Hill	20/04	
21 Simon Fell	6/06	
22 Lovely Seat	21/04	
23 Yockenthwaite Moor	5/03	Straight up from Yockenthwaite and down to Scar House and a pint in the George. The off flake of snow.
24 Tor Mere Top	6/03	Marked by three fallen stones and hidden from view by a drystone wall. Lucky to notice them on a flattish 'top'.
25 Simon Fell North Top	6/06	
27 Drumaldrace	5/03	Firm snow banks and the off flake of snow. Cold and clear.
32 Stony Band	21/04	
33 Woldside	28/04	Much less boggy than usual after a dry spell.
36 Great Pinseat	19/04	Great Pinseat and Melbecks Moor tackled as a backpacking round. Stiff frost that night. Saw my first ring ouzels of the year. The drumming of courting snipe lulled me to sleep.
38 Melbecks Moor	19/04	
40 Naughtberry Hill	28/04	First in a round of three with Brown Haw and Buckden Pike. My GPS became unclipped from my sack somewhere in the rough ground between those last two.
42 Park Fell	6/06	
43 Hoove	19/04	
45 Height of Hazely	4/03	
47 Howden Edge	15/04	
48 Robert's Seat	20/04	
51 Margery Hill	15/04	
53 Redshaw Moss	5/03	
58 Parson's Pulpit	6/06	
59 Back Tor	12/03	
62 Harland Hill	4/03	Splashing through boggy ground from Carlton to an unmarked high point seeing Lapwing, Oyster Catcher and Curlew.
64 Proctor High Mark	6/06	Proctor is a maternal family name of the Chadwicks Peter and Bob. The Proctor name has been associated with the land hereabouts since the 1300s.
65 Clapham High Mark	6/06	
67 Booze Moor	19/04	Booze Moor done with Cleasby Hill and Hoove as a round. Gamekeeper asked me if I was doing a survey. His main concern was the larger gulls taking grouse eggs and him not being allowed to shoot them. Instead, he had Gormley-like standing green artificial men on the moors with nearby gas guns periodically blasting away.

	70 Cleasby Hill	19/04	
	74 Cam Rakes	28/04	
	76 Dead Edge End	23/04	Didn't see a soul apart from a few sheep, lambs and two lapwings.
	77 Kisdon	20/04	Tiring last rise after Water Crag and Rogan's Seat on a hot day.
	78 Calver Hill	19/04	
	79 Simon's Seat	27/04	
	80 Addlebrough	21/04	Short ascent from the northern side. Parked by the farm.
	87 Urra Moor - Round Hill	15/03	
	89 Cringle Moor - Drake Howe	15/03	
	90 Danby High Moor	14/03	The Danby High Moor trig pillar looked very short. Perhaps it has sunk - the moor is boggy enough.
	92 Carlton Moor	15/03	
	93 Noon Hill	15/03	Between Carlton Moor and Noon Hill the smoke from Scugdale heather-burning fires crossed the track for a few hundred metres. About 500m SSE of the listed top (.404) is Cock Howe which my GPS gave as 1m higher.
	94 Cold Moor	15/03	
	96 White Hill	15/03	With a 7:10am start I saw nobody on this 24km round until the last (sixth) top.
	97 Edge Mount	4/03	Visited at 9:10 on the first day of this project. First top ticked?
	103 Burley Moor	27/04	Spotted a stoat racing along the path between the apostles and .402.
	105 Easby Moor	14/03	Ascent from Gribdale in sunshine. Descent hurried as rain approached from the Dales.
	106 Roseberry Topping	14/03	Found a shell fossil – too crumbly to keep.
	108 Barden Fell	18/04	A contentious top for inclusion as it is on an MoD training ground for tank crews. The ground is very chewed up but not so disturbed that red-legged partridge and lapwings were deterred from nesting there. All deserted when this top was visited at sunset.
	109 Heads	14/03	Heads' slopes are now MTB tracks.
	110 Danby Beacon	14/03	Wide view of the North Sea which was looking distinctly blue this day.
	111 Stony Leas - Louven Howe	14/03	Approached from May Beck through fir forest where an adder was moving sluggishly by the track.
	114 The Chevin	12/05	At the evening get together to finish off the project.
	117 Dunsley Moor	14/03	
	122 Diddersley Hill	18/04	One of my two tops reached after sunset.
Mick Borroff	139 Cross, Dun, Knock Fells	21/04	Round of Great Dun Fell, Little Dun Fell and Cross Fell from Milburn. A dozen folk enjoying the sunny weather and the protection of the summit's shelter cross against the cool breeze.
	1 Mickle Fell	30/04	
	6 Great Whernside	6/03	Continued from Tor Mere Top via the mines on Great Hunters Sleets. Hopped from gritstone boulder to boulder to find the highest point. The probable summit rock had a brass survey nipple cemented into it.
	7 Buckden Pike	6/03	Ascent via the waterfalls of Buckden Gill.
	24 Tor Mere Top	6/03	Squelchy traverse from Buckden Pike via the War Memorial.
	28 Birks Fell	5/03	Lovely sunny weather and more long distance views.
	29 Horse Head Moor	5/03	Lovely weather and grand views over the Dales.

	30 Little Whernside	10/03	Approached from the NW by an aspirational path from Dead Man's Hill to show its most attractive side. An uncaired flattish top with a wide area of peak hags. Lots of possible high points to choose from. One S of the wall close to the 604 spot height seemed the best choice. Returned via the bridleway to Lodge in the sun.
	33 Woldside	12/03	A relatively dry and flattish grassy top and several likely humps were visited on both sides of the wall. Jeffrey Pot Scar was much more interesting than the summit.
	39 Meugher	2/04	Combined with Moss Drive. At least Meugher has a trig point and looks like a hill! Has a weather station too!
	41 Pickerstone Ridge	8/04	Sunshine and light hail, plenty of red grouse.
	43 Hoove	15/04	A new hill approached by the Faggeryill Lead Mine and the Frying Pan Stone. Both more interesting than the flat tussocky summit, some 500m SW of the trig point. Descent via Hurr Gill.
	46 Tarn Seat	8/04	Heavy persistent hail shower - bombarded with hail up to 1cm in diameter.
	49 Moss Drive	2/04	Ascent from Lofthouse. Another unmarked and featureless tussocky summit with some patches of soft snow. About 2 deg C with the odd light shower of hail.
	54 Dead Man's Hill	10/03	Another uncaired flattish top. Saw two large hairy Emperor moth caterpillars and a few red grouse.
	55 Great Haw	10/03	Ascent from Scar Dam in mixed sunshine and cloud with a cool breeze. An uncaired flattish top and the few candidates for the highest point were put underfoot.
	56 Blea Barf	10/04	Beautiful sunny day, summit is tiny cairn some 30m from beacon cairn. Good view down Swaledale.
	58 Parson's Pulpit	18/03	Lovely sunny day to do the round of three tops from Street Gate and Middle House. The base of the trig point and its brass insert remain. Accompanied by Hilary Tearle
	64 Proctor High Mark	18/03	Nice caired summit with extensive views. Not a soul on the hill.
	65 Clapham High Mark	18/03	Grassy flat top. Nicely weathered limestone pavement passed on the way down to the bridleway.
	79 Simon's Seat	9/03	Cool and mostly cloud. Summit was deserted except for a few red grouse.
	80 Addlebrough	12/03	A flat-topped hill climbed from Thornton Rust and both the old trig point (with its adjacent cup marked rock) and the high point were visited. Lots of rabbits with curlew and lapwing making their presence known.
	95 Black Hambleton	19/04	True summit easy to find for a change, marked with a small cairn. Done as part of a round of Arden Great Moor from Square Corner.
	102 Sharp Haw	4/03	A short round with a boggy ascent along the Dales High Way and dodging forestry work in Crag Wood.
	113 Lindley Moor	4/03	A short wet expedition to my first top hidden in the dripping pine trees and moss.
	114 The Chevin	12/05	
	122 Diddersley Hill	8/04	Not often there is a reservoir at the very summit of the hill. Ascent in sunshine for a change.
Paul Dover	119 Hood Hill	11/03	The final day of our Yorkshire tour, still sunny but with more cloud. This was our only significant climb of a steep gritstone ridge to a distinct summit in scrub woodland.
	120 Bishop Wilton Wold	8/03	
	123 Settrington Beacon	8/03	

	124 East Heslerton Brow	9/03	
	125 Seamer Beacon	10/03	Our third day of blue sky and brilliant visibility across Ryedale to the Wolds escarpment, still a cool wind.
	126 Ganton Wold	9/03	
	127 Croome Hill	9/03	
	128 Woolley Edge	11/03	Accessed on foot from M1 Wooley Edge Services
	129 Yearsley Cross	11/03	Easily identified summit on the Road to Brandsby by the Reservoir.
	130 Nunburnholme Wold	8/03	Our first 'Top' on a beautiful sunny morning in the corner of a field of OSR which was just starting to bud. Very little gradient so the high point was not easy to identify. The project provided Paul with a very nostalgic tour of the Wolds.
Paul Magson (PM)	5 High Seat	8/04	
	8 Archy Styrigg	8/04	From Mallerstang we walked up the steep hill to High Seat then a pleasant, but boggy, stroll to Archy Styrigg followed by more bog walking to Hugh Seat, Little Fell and Sails.
	10 Hugh Seat	8/04	
	13 Great Knoutberry Hill	22/04	
	16 Fountains Fell	2/04	
	17 Little Fell	8/04	Combined this ascent with High Seat, Archy Styrigg, Hugh Seat and Sails.
	18 Sails	8/04	
	19 Fountains Fell South Top	2/04	
	26 Darnbrook Fell	2/04	
	44 Grizedales	8/03	
	50 Rye Loaf Hill	8/03	There is a surprisingly spectacular view from the summit.
	52 Kirkby Fell	8/03	
	61 Blea Moor	22/04	
	63 Back Scar	8/03	We wondered if this should be called Great Scar as the highest point is closer to Great Scar than Back Scar. On the ground it was difficult to decide which was the highest point so we visited all of them.
	76 Dead Edge End	22/03	
	82 Way Stone Edge	12/03	This is above the farm in the middle of the M62 - I always wondered what was up there - now I know.
	101 Smearsett Scar	8/03	Smearset Scar is the Monte Viso of the Dales, smaller than the other peaks but providing views of Pen-y-ghent, Ingleborough and the Attermire area hills. We will definitely revisit this peak as it makes an ideal evening walk and is only a short drive from Lowstern.
	112 Haw Cliff	12/03	The trig point has been uprooted and thrown over the edge to make way for a wind turbine.
	114 The Chevin	10/04	
Peter Bann (PM)	1 Mickle Fell	30/04	
	3 Ingleborough	10/03	
	6 Great Whernside	6/03	
	7 Buckden Pike	6/03	
	21 Simon Fell	10/03	
	24 Tor Mere Top	6/03	
	25 Simon Fell North Top	10/03	
	28 Birks Fell	5/03	

	29 Horse Head Moor	5/03	
	42 Park Fell	10/03	
Peter Chadwick	68 The Old Pike, Beamsley Beacon	22/04	
	91 Round Hill	22/04	With Maggie the dog, the wind and the grouse for company.
	139 Cross, Dun, Knock Fells	4/05	
Peter Tennant (PM)	13 Great Knoutberry Hill	16/04	After visiting Blea Moor we joined the DW to take us up to Wold Fell and then onto the PBW to pickup the path leading us to the trig point on Great Knoutberry Hill. We dropped down to contour beneath Great Knoutberry Hill and then back to the DW via Arten Gill.
	36 Great Pinseat	15/04	Coming from Melbecks Moor, the path leads up and we break off at the high point to locate the trig on Great Pinseat. The trig was behind a stone wall that needed to be scaled to get to the top. Returned back to the track and then on to the car at Fore Gill.
	37 Black Hill	23/03	Parked on the A635 just before Turton's Edge. We follow Springs Road to drop down to Blackpool Bridge and around to Issues Road before rising to join the Pennine Way. The stone paved flags then lead us to the high point of Black Hill (582m). We return on the Pennine Way until the head of Reaps Hill Clough where we pickup the Kirklees Way to cut back to Issues Road.
	38 Melbecks Moor	15/04	From Surrender Bridge followed track upto the mine workings before breaking off to Melbecks Moor. Returned by the C2C to take us back to the main track.
	61 Blea Moor	16/04	Parked at Dent Viaduct. Picked up path leading us to the railway ventilation shafts before breaking away to track the fence line to the trig point of Blea Moor. Heading on to Great Knoutberry Hill we followed the fence line to pickup the Dales Way.
	66 Horse Stone Naze	5/03	From Hoar Stones (#69) we crossed Coldwell Clough Head directly to the impressive Horse Stone at the high point of 527m. We continued a short distance south down the Horse Stone Naze to have lunch at the rocky outcrop and to enjoy the panoramic views of the Peak District. We retraced our steps to the Horse Stone to descend into Stainery Clough Head before heading north to return along Howden Edge and over Round Hill back to the car.
	69 Hoar Stones, Howden Edge	5/03	Parked at a layby on A628 beneath South Nab. This route included a second peak, Horse Stone Naze (#66) described elsewhere. Approached Howden Edge from the North. Loftshaw Clough and Laund Clough were crossed to pickup line of shooting butts taking us to Howden Edge. There is no notable feature at the high point 514m denoted on the OS Map, so included a selfie that was taken on this spot. We continued to Hoar Stones that are located nearby. We returned over Round Hill after taking in Horse Stone Naze (#66).
	72 Cracoe Fell	26/03	From Thorpe Fell Top (#73), we cut across heather to rejoin the main track and onto Cracoe Fell (#72). We continued along the craggy edge to visit the Cross before picking up a good track further down back to Rylstone.
	73 Thorpe Fell Top	26/03	From Elbolton Hill (#81), we dropped down towards Thorpe to pickup the walled lane leading onto the moorland to join the upper track. We left the track to cross a short section of heather to arrive at the trig point at Thorpe Fell Top (#73).

75 West Nab	18/03	<p>Parked just outside of Meltham. Start on Brow Grains Road to cut around Deer Hill Reservoir and past the Rifle Range, to follow the path alongside the Deer Hill Conduit which leads into the Wessenden valley. We leave the conduit at Leyzing Clough to rise over Raven Crag and make the final westerly approach to West Nab (500m).</p> <p>West Nab is on our local patch and a top we know well. We tried something different today to see if we could get over the top to Raven Crag skirting the "Danger Area" on Deer Hill Moss; we had several attempts but were thwarted by large patches of deep/wet tussocky ground and in the end retreated to the conduit path.</p>
76 Dead Edge End	21/03	<p>Parked at the high point on A6024. At the County Boundary Stone, we followed the fence line over Britland Edge Hill (524m) and cut across to Withins Edge leading us to the trig point at Dead Edge End (499m). We returned by dropping down to pick up the line of stone shooting butts, rising up to the trig point at Snailsden Edge Pike (475m) before picking up the edge path above Ramsden Clough to allow us to cut back to the outward path.</p>
78 Calver Hill	15/04	<p>Parked at Fore Gill. Went out to Calver Hill as part of a round of three tops. Returned to Surrender Bridge to pickup the track for Melbecks Moor.</p>
81 Elbolton Hill	26/03	<p>Parked at Rylstone for a clockwise circuit to visit Elbolton Hill (#81), Thorpe Fell (#73), Cracoe Fell (#72). We took Chapel Lane to Cracoe and then Thorpe Lane to Far Langerton where we picked up the track leading to the large cairn on Elbolton Hill.</p>
82 Way Stone Edge	17/03	<p>Parked at a layby on A640 where the Pennine Way crosses the road. Followed the Pennine Way, past the boundary stone that marks the "Most Easterly Point in the County of Lancashire" until we reach White Hill (466m). We go through the gate and follow a good path to head over to the Way Stone high above the M62 with views out to Stoodley Pike. We spend the next hour exploring the broad top for the elusive highest point of Moss Moor (482m) and visited a number of points with the same elevation across the moor including the marked OS top to ensure we had it covered. We returned by the same route.</p>
83 Hoof Stones Height	19/03	<p>Parked on A646 just before Hebden Bridge. Walked through the town to pickup the path leading beneath Heptonstall Crag and onto Popples. A selection of paths took us above Colden and then over to Pad Laithe (ruin) before approaching Hoof Stones Height from the east across Hoar Side Moor. We retraced our steps to Pad Laithe but returned to the north of Blackshaw Head, through Jack Bridge and back to Hebden Bridge via Colden Clough.</p>
85 Withins Height	25/03	<p>Parked by the reservoir at Ponden. We followed the track around the reservoir, skirting Ponden Hall, to rise onto Stanbury Moor past the Lad o' Crow Hill stone until Crow Hill. Drop into Walshaw Dean and down to the upper reservoir and then upto Withins Height via the shooting butts. The boundary stones lead us onto Round Hill and we cut across to find the high point (457m). We continue onto the ruin at Top Withins, cut over to the trig point on Stanbury Moor and onto the Alcomden Stones before returning down Middle Moor Clough and along Birk Brink back to Ponden reservoir.</p>

	88 Little Wolf Stones	10/04	Parked at Morkin Bridge. We joined Keithley Moor to rise up to the Shooting Box, before tracking the wall as far as the Hitching Stone and then across to Wainman's Pinnacle. We headed west to drop into Close Lane taking us to Lumb where we pick up the Pennine Way to cross Ickornshaw Moor to reach the trig point at Little Wolf Stones (443m). We returned via Keighley Moor reservoir.
	103 Burley Moor	1/04	A lucky encounter with Arthur Salmon on Burley Moor today as we both approached the 342m top at the same time. Parked on Westwood Drive above Ilkley. Followed the Millennium Way heading west as far as Piper's Crag before turning to rise over Ilkley Moor to the trig point 402m (alternative listing). We cut across to the 12 Apostles and onto the Shooting Lodge before leaving the track to the 342m top of Burley Moor where we meet Arthur approaching from the north. We descend to the Cow, Calf Rocks and return via Ilkley Tarn to pickup the Millennium Way.
	115 Emley Moor	14/04	Close, but no cigar. Access into the reservoir grounds is now padlocked on both gates. The field adjoining the reservoir on the right has also had wire fencing erected with two rows of barbed wire (see photo). Security probably increased when the temporary second mast was erected. We parked up in the public viewing area but could not get into the reservoir grounds without trespassing. We didn't feel comfortable jumping over the stone wall and, so retreated back to the car. Sorry. If someone would like to try to approach confidently, feigning access rights or maybe performing a stealth midnight attempt then maybe you will have better luck than us.
Ray Harben	123 Settrington Beacon	5/04	
	124 East Heslerton Brow	5/04	Got as far as the wooden post near the trig.
	125 Seamer Beacon	5/04	This greyhound was a bit slow out of the trap these days after some minor health issues in March - a corn on my little toe of my left foot making walking a little painful then a mild touch of Covid but I made a start on my tops on 5th April very fine day with clear distant views of the Wolds and North York moors. First up was Seamer Beacon for which parked up just above GCHQ. I am sure the car was checked out to make sure we were not Russian spies looking for Salisbury cathedral. A pleasant walk up to the knoll apart from a very boggy patch which as easily negotiated. Gorse was out in full bloom. I reached the top at 1130am then down to Ganton Top, inaccessible as road through village closed to traffic and just a bit too far to walk from A64 then onto Heslerton stopping off at farmhouse bakery for coffee and scone first. I parked on road above the village opposite a plantation and joined the Yorkshire Wolds Way through the wood at the end of which the Right of Way was closed off and a diversionary route was Taken around two very large fields. I found the ground uneven and very hard going then met a local. I mentioned we were looking for a trig point who said go onto the next hedge and go up the field a couple of hundred yards to find it. Unfortunately, it turned out to be a 8 by 8 timber post and at this stage I was creamed cracked and so decided that this was to be our high point on the Wold turned around and headed back in a gale force Easterly wind but no rain and skylarks in full throttle. Then onto

Settrington Beacon to just fall out of the car for a quick photo then back home for a welcome hot bath.

Richard Dover	119 Hood Hill	11/03	
	120 Bishop Wilton Wold	8/03	
	123 Settrington Beacon	8/03	
	124 East Heslerton Brow	9/03	
	125 Seamer Beacon	10/03	
	126 Ganton Wold	9/03	
	127 Croome Hill	9/03	
	128 Woolley Edge	11/03	
	129 Yearsley Cross	11/03	
	130 Nunburnholme Wold	8/03	
Richard Smith	131 Bonfire Hill / Landmoth Hill	24/04	The last of the tops to have a visit.
Richard Taylor	114 The Chevin	12/05	
	139 Cross, Dun, Knock Fells	4/05	From Kirkland: including Knock's Old Man then descending to Knock. In thick mist and some rain on the descent. All completed old school style using only map and compass although my partner in this exploit disgraced himself at one stage by looking at his phone which merely confirmed that we were where I had said we were. Distance 16- 17 miles .
Robert Crowther	7 Buckden Pike	6/03	
	15 Dodd Fell Hill	5/03	
	27 Drumaldrace	5/03	
	53 Redshaw Moss	5/03	
	98 Pinhaw Beacon	8/04	Summit reached at 15:30, fantastic panoramic view despite the hail showers.
Rod Smith	7 Buckden Pike	5/03	
	37 Black Hill	20/04	Black Hill tackled from the site of the old Isle of Skye Inn on the A635 Holmfirth Greenfield Road. What was a terrible morass of wet peat has been transformed by paving slabs, recovered from the floors of mills A pleasant walk with skylarks singing and the sun shining. The OS cairn now sits atop a stone plinth and is sinking to lean towards the south. Wainwright claims to have been rescued from the peat here during his Pennine Way visit. He gets the history of Soldiers Lump and the Great Ramsden Theodolite used on the first OS survey wrong. The instrument never visited Black Hill.
	107 Wharnccliffe Chase	17/04	
Rory Newman	87 Urra Moor - Round Hill	14/04	
	89 Cringle Moor - Drake Howe	15/03	With Sue Thomason (guest)
	90 Danby High Moor	6/03	Odd stunted trig point on boggy moorland - only about 2 feet high. Is it sinking into the bog?
	92 Carlton Moor	15/03	With Sue Thomason (guest)
	94 Cold Moor	15/03	With Sue Thomason (guest)
	96 White Hill	15/03	With Sue Thomason (guest) - we met Alan Linford and party having lunch at the Wainstones.
	105 Easby Moor	10/03	
	106 Roseberry Topping	10/03	Good view of Red Kite on the shoulder of the Roseberry
	109 Heads	6/03	No right of way to top but no obvious objection to visit
	110 Danby Beacon	9/03	With Sue Thomason (guest)

	111 Stony Leas - Louven Howe	7/03	With Sue Thomason. Good view of pair of crossbills. There is a trig point, but the top is on a tumulus about 20m south of this
	111 Stony Leas - Louven Howe	2/04	Good views of 2 buzzards and 3 crossbills
	116 Brow Moor	5/03	
	116 Brow Moor	27/03	
	117 Dunsley Moor	4/03	Top hidden in forestry. Green woodpecker seen
	121 Barns Cliff End	6/03	With Sue Thomason (non-member)
	125 Seamer Beacon	5/03	Hard to find top - has the remains of a folly - Baron Albert's Tower
	125 Seamer Beacon	11/04	
Stephen McCain (PM)	99 Skipton Moor	23/03	
	132 Cocklick Hill	23/03	I've walked up some pointless hills in my time but this one takes the biscuit.
Tamsin Spain (PM)	5 High Seat	8/04	A steep walk up from Mallerstang and then onto the other four - Archy Styrigg, Hugh Seat, Little Fell and Sails.
	8 Archy Styrigg	8/04	
	10 Hugh Seat	8/04	The third of the five tops... the highest point is actually by the gate but the cairn is the point marked on the map/app. From here we continued on to Little Fell and Sails.
	13 Great Knoutberry Hill	22/04	
	16 Fountains Fell	2/04	
	17 Little Fell	8/04	
	18 Sails	8/04	The final top of the Mallerstang Edge group having started the day with High Seat. Good views all day and distant snow-capped hills in the Lakes. Mostly sunny with some hail. Back to Mallerstang via more bog and past Hell Gill Canyon.
	19 Fountains Fell South Top	2/04	
	26 Darnbrook Fell	2/04	
	44 Grizedales	8/03	
	50 Rye Loaf Hill	8/03	
	52 Kirkby Fell	8/03	
	61 Blea Moor	22/04	
	63 Back Scar	8/03	
	76 Dead Edge End	22/03	
	82 Way Stone Edge	12/03	
	101 Smearsett Scar	8/03	
	112 Haw Cliff	12/03	
	114 The Chevin	10/04	Base camp was established in the car park from where an international team of French and British mountaineers pushed the 150m to the summit of Beacon Hill without the use of fixed ropes.
Yayoi Smith	37 Black Hill	20/04	
	107 Wharnccliffe Chase	17/04	A very short walk from Woodhead Road. Alas, no sign of the Royal Deer or the Dragon of Wantley! The summit was underwhelming.

26 Drumaldrace: two Crowthers and a Smith on the second day, their third top of that bright chilly day

46 Tarn Seat with hail stones

59 Back Tor (above Derwent Dam) with backpacker

52 Kirkby Fell on Harvey's home ground

69 Horse Stone Naze and another half of the Tennants

List of Participants

Members participating were:

Peter Bann (PM)	Anne Latham
David Booker-Smith	Alan Linford
Fiona Booker-Smith	Harvey Lomas
Mick Borroff	Paul Magson (then PM)
John Brown	Stephen McCain (PM)
George Burfitt	John Middleton
Derek Bush	Rory Newman
Peter Chadwick	Alan Palmer
Michael Crowther	Anca Pordea
Robert Crowther	Arthur Salmon
Paul Dover	Barbara Salmon
Richard Dover	Helen Smith
Iain Gilmour	Michael Smith
Mike Gregg	Richard Smith
Raymond Harben	Rod Smith
Christine Harrison	Yayoi Smith
Jim Harrison	Tamsin Spain (then PM)
Ian Hawkes	John Sutcliffe
Dorothy Heaton	Andy Syme
David Hick	Richard Taylor
Chris Hilton	Jennifer Tennant (then PM)
Alan Hinkes	Peter Tennant (then PM)
Becca Humphreys	Conrad Tetley
Jason Humphreys	Carol Whalley
John Jenkin	John Whalley
Alan Kay	Frank Wilkinson

Guests accompanying Members were:

Felicity Beasley	Julia Kay
George Buxton	Angie Linford
Beverley Eastwood (now Member)	Christine Marriott (now Member)
Zara Eastwood	Valerie Middleton
Alison Edwards	Lynn Oxlade
Adrian Freeland	Malcolm Oxlade
Sarah Gilmour	Gail Taylor
Carole Harben	Hilary Tearle
Sam Hawkes	Sue Thomason

Acknowledgements

Thanks go to all the above for supporting this project, especially to those who endured days out in unrewarding places or struggling through bogs or unhelpful vegetation. Thanks also to Mick Borroff, Adam Linford and Michael Smith who took the idea and made it workable. We remember and value the hundreds of members who, over the centuries, have formed the Yorkshire Ramblers' Club into what it is today – their contributions are worthy of being marked in this our 130th year.
